Summary

During 2008, all PEPESec project partners have researched and produced 10-12 energy management case studies.

Together with additional research and production from Genoa Municipality, Eurocities and Manchester: Knowledge Capital the total produced by December 2008 is 176 case studies. These cover a wide range of energy management topic areas.

These can be accessed at: <http://www.pesesecenergyplanning.eu/>

These case studies form a significant part of the Knowledge Base v1.0.
